## **PROGRESSION MAP KS2**

# **CURRICULUM AREA: PE Athletics**

### Healthy hearts and happy minds

At Mount Charles School, we want our children to be happier, healthier and stronger. Through PE and Sport, we aim to inspire and encourage pupils to see exercise as essential to both their physical and mental health

# **Purpose of Study**

A high-quality physical education curriculum inspires all pupils to succeed and excel in competitive sport and other physically-demanding activities. It should provide opportunities for pupils to become physically confident in a way which supports their health and fitness. Opportunities to compete in sport and other activities build character and help to embed values such as fairness and respect.

#### Aims

The national curriculum for physical education aims to ensure that all pupils:

- develop competence to excel in a broad range of physical activities
- are physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives.

# **Subject Content**

Pupils should continue to apply and develop a broader range of skills, learning how to use them in different ways and to link them to make actions and sequences of movement. They should enjoy communicating, collaborating and competing with each other. They should

develop an understanding of how to improve in different physical activities and sports and learn how to evaluate and recognise their own success.

#### Pupils should be taught to:

- use running, jumping, throwing and catching in isolation and in combination
- play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders and tennis], and apply basic principles suitable for attacking and defending
- develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- perform dances using a range of movement patterns
- take part in outdoor and adventurous activity challenges both individually and within a team
- compare their performances with previous ones and demonstrate improvement to achieve their personal best.

### **Mount Charles School progression map**

In KS2 children will children will be taught the following units during the year:

- Athletics,
- Dance,
- Games,
- Outdoor & Adventurous,
- Gymnastics
- Swimming
